DIVE BONAIRE

WITH UNDERSEA DIVERS

Divi Flamingo Beach Resort and Casino

March 10th – 17th, 2012

About Bonaire:

Undersea Divers is the Bonaire trip specialist.

For over 20 years Undersea Divers has been running trips to this "Diver's Paradise" and divers have been coming back year after year. If you've never been to Bonaire, don't miss out on this opportunity to experience pure diving freedom. There are a limited number of spots on this trip. Payment must be received in full to reserve your spot. Bonaire's pristine reefs and diverse marine life are unique to the Caribbean. Because the waters around Bonaire are designated as an official marine park, diving Bonaire is like diving the Caribbean the way it used to be - untouched and unspoiled. The island's location in the south Caribbean gives it an arid climate with little rainfall; consequently, the waters are exceptionally clear of silt, calm, and divisible year round. It is an ideal destination for underwater photographers. Water temps average a warm 78-84° with visibility often over 100 feet and frequently up to 150 feet. Few destinations offer the photographic opportunities that you will find in Bonaire. With incredible visibility, abundant fish life and healthy reef system, wide angle opportunities are naturally abundant. But it is the bounty of macro life visible both day and night, that truly sets Bonaire apart.
