

# UNDERSEA DIVERS

JULY 26 - JULY 30, 2012

PLAYA LA MEDIA LUNA  
ISLA MUJERES, MEXICO

SNORKEL WITH

# WHALE SHARKS

# PLAYA LA MEDIA LUNA

Release yourself and come to a place devoted to relaxation, Isla Mujeres. The quaint and beautiful Hotel Playa la Media Luna, offers you the most comfortable ocean front accommodations on the quaint and secluded "Half Moon Beach".

This small property is ideally located on the secluded "Half Moon Beach" on the Northern tip of Isla Mujeres. The "Half Moon Beach" took its shape from being natural barrier reef with vibrant undersea life. A two minute walk from your room takes you to the reef protected north beach with its calm shallow turquoise waters ideal for swimming.

# WHALE SHARK TOURS

On this island getaway you will be able to snorkel with the majestic underwater creatures, whale sharks. Whale Sharks (Rhiniodon Typus) are harmless sharks, not whales. They are the largest fish in the ocean and average 25ft long but have been recorded up to 46ft. Whale Sharks primarily live in tropical warm waters and are generally found in the open ocean. They were only recently discovered to congregate once a year in the summer time nearby Isla Mujeres. Whale sharks are filter feeders and their diet consists of plankton, algae, and krill. In order to feed, they scoop these tiny plants and little animals, with their colossal gaping mouths while swimming close to the water's surface. Although massive, whale sharks are docile fish. You can safely snorkel with them while they are feeding on the surface. They have actually been reported as behaving playfully with divers and snorkelers. Each encounter allows for 2 people to enter the water at a time in addition to the guide.

## IMPORTANT NOTES

- Children must be 7 years of age or older for whale shark tours
- Life jackets are required unless you are wearing a **3mm shortie wetsuit** or more
